

Scent Descriptions

Blueberry Muffin

Aaaahhh, the aroma of a freshly baked blueberry muffin. It's buttery and full of blueberry and vanilla.

Lemonade

No summer day is complete without a tall glass of ice cold, freshly squeezed, lemonade.

Melon Mist

A refreshing blend of watermelon, juicy honey dew and cantaloupe.

Lilac

The lovely scent of a freshly blooming lilac bush on a spring day.

Island Fresh

It's fresh, clean and a perfect blend of lavender, vanilla, rose and melons.

Coconut Lime Verbena

A citrus bouquet of lime, kumquat, grapefruit, lemon, with a soft floral undertone of jasmine, on a background of musk and sandalwood.

Strawberry Shortcake

A delicious, buttery, vanilla cake with notes of freshly sliced strawberries and rich vanilla cream

Lavender Vanilla

A well-rounded combination of fresh lavender and vanilla beans.

CAR DIFFUSERS

Now you can have our great scents in your car! These 8 ML. diffusers are made with phthalate free fragrance oils and do not emit dangerous chemicals.

Georgia Peach

Deliciously fragrant with a bursts of peach nectar.

Tiki Beach

A rich blend of toasted coconut, vanilla musk and orchids that have you feeling like you're on vacation.

Vanilla Bean

Sweet, but not too sweet, aroma of sugar and vanilla beans.

Oatmeal Milk & Honey

Creamy French vanilla, soy milk and a delicious nutty almond.

A Perfect Gentleman

A fresh, aquatic aroma that's very similar to a popular men's cologne.

Honeysuckle

A perfectly sweet balance of honeysuckle, blended with jasmine, rose and lilac.

Sweet Orange Chili Peppers

Infused with succulent oranges, fragrant bergamot, earthy ground pepper, spicy chili peppers, and a hint of musk.

Georgia Peach

Deliciously fragrant with a bursts of peach nectar.

Jamaica Me Crazy

Fruity and tropical with notes of mandarin, lime and tangerine blended with melon.

- THE WAX MILL -

Why Soy Candles?

Our natural soy wax is a non-toxic and environmentally friendly renewable resource, grown in America by American farmers. In contrast, paraffin wax used by most candle companies produce toxins into the air.

Soy wax burns cleaner and cooler than paraffin wax, greatly reducing soot production and providing a 40-50% longer burn time. Our cotton wicks do not contain any harmful metals, such as zinc or lead, and all of our fragrances are body safe. Many have a high concentrations of essential oils.

Our soy candles make the best gifts for friends, family, co-workers, or even yourself. Order today to a true fragrance experience!
